Association of Australia Inc.

Navillus

Mission Accomplished over 30 years. Showing at 24 individual shows including Melb Royal, Kyabram & Colac BI Centenary shows 1988 & a Championship at every show

Our very 1st Champ Cow was NorleenVale Annette 18th Champion at Camperdown.
Our last was Navillus Sunflower 42 at P.J.B fair at Numurkah 2001.

N.V. Annette 18 V.H.C.

N. Sunflower 42 V.H.C.

Navillus

After obtaining a block on the Heytsbury settlement in 1969 we purchased cows to start up families such as Silvermines, Rosebuds, Love Lies, Raes, Buttercups, Sunflowers, Regent Queens, Beryl's and then bulls namely

Franchiff Bestman - Tarnhowe Gay Sambo

- F. Buttercup 6 V.H.C.

Franchiff Magnets Finest - Franchiff Soumise Magnet

- Franchiff Illusion 68 V.H.C.

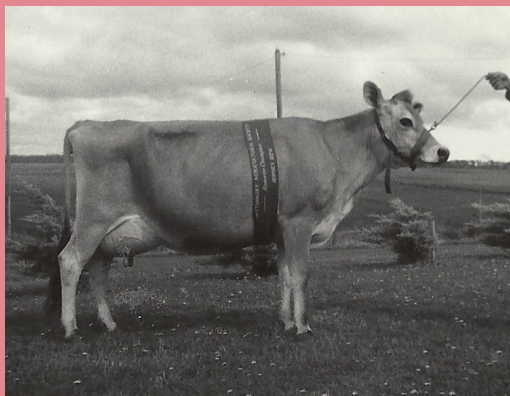

Elenko Louella's Sam - Waitoa Stylish Sam

- Tarnhowe Jolly Louella V.H.C.

Densondale Delight's Sam - Grandeur Dreaming Sam

- Kakariki Choice Delight V.H.C.

And Katandra Royal Jingo then we bred our own bulls after that.

Franchiff Beryl 119 V.H.C.
Champ Heytsbury

Katandra Silvermine 119 V.H.C.

Champ Cow Kyabram & Cobram

N. Pam 43 V.H.C

N. Sunflower 24 V.H.C.

Our Melb Show team always consisted of 13. We tried to encourage the younger breeders over the years and helped them to establish their studs by donating them an animal. We always volunteered and offered our farm for classification, judging and field days to promote Jerseys and helped in any other capacity where needed.

I was on the classification panel. I have enjoyed judging all over the eastern sea board of Australia and New Zealand. Perhaps the highlight of my judging career was Hamilton Royal N.Z. in 1992 where there were 50 heifers 2 years old in milk.

The ironical thing now is the story of Ron as a 10 year old being given a Jersey cow "Pine Ridge Rosedream 39" by Mr A. Nancarrow and now 64 years later we live in house no 39 at "Lifestyle Village" to which you are all invited for a "chat and cuppa".

*Greetings
to One & All*

Seven Hills Sleeping Beauty's

Our Sleeping Beauty family traces back to Lynbrae Sleeping Beauty 128 HC+, a Yarravale Royal Omen daughter that was the top producing cow in the Lynbrae herd over many years and most consistent breeding cow in 50 years according to stud principle Gordon Peak. Her HC+ classification was not a true reflection of this cow's true type, having only been classified once as a young cow in late lactation and lost before reclassification. She was the dam of both Sleeping Beauty 162 VHC and 166 SUP, the former being the top priced cow at the Lynbrae dispersal and the latter being the only cow retained by Gordon after the milking herd dispersal in 1992.

We were able to purchase the granddaughter of Sleeping Beauty 162 at the second stage dispersal; Lynbrae Sleeping Beauty 259 VHC, a Lynbrae Valley Beacon daughter out of Lynbrae Sleeping Beauty 221 Sup. Sleeping Beauty 259 VHC had 3 daughters, two of which gained a VHC classification, however only the first of these has progeny in the herd today. This family is currently represented by seven members of which the 2 oldest are SH Sleeping Beauty 10 VHC 90 and SH Sleeping Beauty 11 VHC 92.

Eurarie Jersey Stud

The "Eurarie" Jersey Stud was founded by Mr James A. Till in 1929 following the acquisition of his first stud female; a five month old calf purchased for 15 guineas from the Ballara Stud. Mr Till was currently milking 13 grade cows on his family's six acre farm at Lauriston, Victoria. He was a keen breeder of ferrets, which he sold throughout the state, and an apt hand at rabbiting which enabled him to earn enough capital to make this purchase.

He well knew the need for efficiency, dedication and good farming techniques to make returns from this small farm in a cold district where rocks and furze hedges were prevalent.

Over a number of years he became well known for his success in Fodder Conservation Competitions sponsored by the R.A.S. throughout Victoria, firstly under dry land farming in the Kyneton district and later under irrigation at Tongala. Through his interest and participation in this field he gleaned much knowledge on pasture improvement which he always maintained was an essential part of his Jersey Herd management.

Mr Till married in 1936 and his wife Gwen, who had an excellent eye for livestock, helped tremendously in building the Eurarie herd and farm.

Neighbouring paddocks were secured for the farm and the stud gradually expanded with the addition of Grangelea Velvet 2nd, (from which descends the famous Velvet family) Gnarbrook Pride, purchased at the Royal Centenary Show in 1934 (Princess family) Gladfield Princess (Duchess family) and from the first stud female Ballara Bluebell 3rd (Progress and Silvermine families). Grangelea Roderick 3rd was used with much success in the early days and also Surrey Hurricane. Both bulls carried Werribee, Banyule and Wotton Airman (imported) bloodlines.

Of particular influence was the purchase in 1943 of the outstanding sire Mornmoot Viceroy 2nd by Werribee Viceroy from the twice champion test cow Mornmoot Princess Madeira which had produced over 700 lbs butterfat on three occasions and had a ten year average of 595 pounds butterfat. Mr Till maintained the policy to look for a son of a long lifetime producer when seeking a herd sire. Thus through Viceroy 2nd the very strong line of Madeira cows was introduced into the stud.

It was during this time in the 1940's when the stud was shifted to Tongala onto 79 acres and the herd started to gain momentum under the Victorian Standard Herd Test. Agricultural circles eagerly awaited news of the progress of the herd and as it steadily climbed higher it received great media coverage. Along with Mr and Mrs Till the Jersey cow in Australia received great publicity too.

In 1952-53 the Eurarie Herd topped the Victorian Standard Herd Test with an average of 495 lbs butterfat from 36 cows in 273 days. To appreciate the significance of this record, at that time only 15 Jersey herds had ever exceeded 500 lbs butterfat and only once with a herd of more than 36 cows.

After the shift to Tongala, the Peggy and Blonde families were commenced following purchases from the Belgonia Stud; the Blondes coming from Oaklea Blonde (imported from New Zealand).

In 1954 Mr and Mrs Till after much letter writing and studying of pedigrees and photographs imported two bulls from Jersey Island. This proved to be a top move in the stud and the bulls Jingo's Graceful Lad and Mervias Rush Designer bred one of the greatest production herds ever seen in Australia.

The family shifted to North Mooroopna in 1956 and with a lot of dedication, turned a grazing property into a dairy stud farm.

For nine years the herd was Champion Test Herd of Victoria under Government Testing and in 1966 achieved a Southern Hemisphere record when 72 cows averaged 617 lbs butterfat and over 1000 gallons of milk. A daughter of Jingo's Graceful Lad, Eurarie Velvet 24th still remains the highest produced ever at Eurarie with 951 lbs butterfat.

Throughout this time the type of the herd advanced as well with Mr and Mrs Till always endeavouring to breed big capacity Jerseys. Progeny of the Island bulls competed successfully at the strong Goulburn Valley shows where for many years they were renowned winners of breed and interbreed classes.

In 1958 the first Eurarie Bull Sale was held. This was the first time a breeder had ventured to sell a line of bulls only at auction. There was a total clearance of the 25 head with the highest price being 240 guineas.

An annual sale of bulls and females was held on the property until 1978 when due to illness Mr Till faced semi-retirement and the sale of the 550 acre property.

A base herd was shifted to a smaller farm at Shepparton East and Mr and Mrs Till's youngest daughter Betty and son-in-law Jim Jeffery continued on with the stud.

Since 1973 New Zealand bulls were introduced into the herd and of major significance was Cleavedale Othello. Used over his progeny was Carrondale Royal Pride (imported from New Zealand). From the strength of these two sires the herd was awarded a Gold Certificate for having produced in excess of 250kg butterfat in 1983-84.

Eurarie Jersey Stud

In 1983 Mr Jim Till was awarded a Life Membership of the Australian Jersey Breeders Society for his own and his wife's achievements and contribution to the Jersey breed.

At Shepparton East the herd rebuilt and flourished again under the influence of the two outstanding NZ bulls imported by Mr and Mrs Till. Cleavedale Othello from the superb Rocklea Demo Cuddle Exc. and sired by Big Hollow Jovial Pioneer, was imported in 1973 for a then record price for a yearling bull of \$8000. He was very prepotent leaving super type and production daughters, not only at Eurarie but Australia-wide once made available through AI; his reliable proofs for over 2000 daughters guaranteed his valuable contribution to the dairy industry.

Carrondale Royal Pride from the highly acclaimed Carrondale Apex's Petrina Exc. and sired by Grandeur Royal Diplomat bred consistently well and his daughters graced the Shepparton National Dairy Show and other major Goulburn Valley shows with high distinction in both Jersey and Interbreed classes.

Awatui Grand Ace was then imported and Ivanhoe Ideal Lin (a share purchased with NZ breeders) backed by rock-solid dams and sires, were also used heavily and maintained a quality herd which continued to achieve Gold Certificate status and compete successfully at local shows and also International Dairy Week where Eurarie Lin's Serene was Res. Champion Cow. Other NZ and homebred sires were also introduced to the herd. Seven on-farm Reduction Sales were conducted over the years.

With nearly 70 years of strong cow families, carefully selected North American and Canadian sires were used and Highland Duncan Lester in particular, bred well with the NZ bloodlines and provided a milk production increase as well as maintaining super type. Grove and Juno also bred some very good daughters.

In 1999, the herd celebrated 70 years of breeding. This was also the Centenary year for the Australian Jersey Breeders Society and coincided with the 15th World Jersey Cattle Bureau Conference held in Australia. Eurarie was honoured to have a contingent of international visitors to the stud on this occasion.

During these years the whole family was involved in the Jerseys. Carolyn and Gregor attended Jersey Youth camps and Carolyn was inaugural winner of the Qantas AJBS Travel Scholarship to North America, as well as along with Betty was on the Victorian Judges Panel. Joanne worked as Executive Officer for the AJBS prior to working at the RASV. Jim held office at the GM Jersey Breeders Club. Eurarie hosted judging and classification days and provided Jerseys for field days.

In 2004 the 100 cow herd averaged 5897 L 3.9% 228 P 5.4% 316kg F in 300 days with many cows exceeding past records. The herd's 12th Gold Certificate was attained.

In 2005 and 2006 a dispersal of the herd was held and daughter Carolyn and husband Charles Smith took on the challenge of introducing Eurarie breeding stock into their well known Andes Holstein herd at St Germain's, Victoria.

Eurarie History

Today the Eurarie herd is milked near Undera in Northern Victoria on the property of Carolyn (nee Jeffery) and Charles Smith. Here the Smiths milk and mixed herd of up to 460 milkers of which approximately 80 are stud Jerseys. Holstein Friesians from the "Andes" stud make up the rest of the herd. "Andes" Holstein Stud was established many years ago by Charles's grandfather, Howard Smith.

All the original Eurarie cow families still exist today in the herd. Charles and Carolyn selectively use New Zealand, US, Canadian, Australian and some home-bred bulls. The goal is to breed good uddered cows with plenty of body depth, width, length and height.

The Jerseys compete well in the large, mixed herd and have achieved Gold Certificate production. In the Northern District On Farm Challenge, a number of places have been awarded over the years. Highlights include Eurarie Sambo Peggy 3 being a finalist in the Great Southern Challenge in 2006.

More recently, Eurarie Flower Progress was a finalist in the 2012 Great Southern Challenge having won the very strong three year old class locally. She also won best udder for her class and went on to classify 91 points. E. Flower Progress descends from the very first cow registered by Jim Till, "Progress of Eurarie." Her production so far as a three year old in 246 days is 5784 litres, 4.81% 278kg fat, 3.61% 209kg protein.

Another noteworthy achievement in 2012 was Eurarie Benedict Design 3 winning Junior Champion and Supreme Champion at the Numurkah Calf Day. She was paraded by Charles and Carolyn's son, Alex (9). Hamish (7) had won Supreme Champion Holstein at the Calf Day two years prior to this!

Charles and Carolyn watch with interest the continuing achievements of other Jersey breeders at major shows where Eurarie cow families are clearly breeding on.

GV P J B Club News

The Greater Valley Pure Jersey Breeders Club held their annual Christmas party and presentation of The On Farm Challenge on Tuesday 26th November at the home of Neville & Janelle McDonald Kyabram.

Most club members and families as well we had visitors from the Western Districts and also from around Pyramid Hill area.

The members enjoyed a BBQ lunch followed by Santa making an appearance for the younger members. As well as presentation of the certificates for the winners of the O. F. C.

The next meeting of the club will be held at A & J Higgins Numurkah 28th January 2014.

Club secretary Janelle McDonald had a very successful day at Kyabram show winning 3 best exhibits in the pavilions. Best exhibit in the cookery (Christmas Cake which we had at the Christmas Party), Best exhibit in the jams and jellies and also best exhibit in the photography.

Ardlay Jersey Stud

Cow pictured is Winrae Glads Sweetrose 18, she won 4 Junior Championships in one season. She is the fourth dam of Sweetrose 74 (First place in milk 2012 and 2013, and Reserve Senior Champion and second Best Udder 2013), Lancasters Sweetrose (Heifer back cover June 2012) and GrandPrix Sweetrose 3. Ardlay Golden Grace 34 is sired by Ardlay Roses Gallant who is a grand son of Sweetrose 18. Ardlay Roses Gallant's sire is Madeley Park Designs Bravo (Big Hollow Designs Meteor from Big Hallow Sultans Bell), Bravo also sired last years Senior Champion Ardlay Bravos Heidi. Ardlay Bravos Confetti is another daughter of Bravo who also placed well in the OFC 2013. Ardlay Choice Lynette 2, Best Udder 2012 winner, has three daughters in the herd this season with two of them attaining their VHC awards this year, Ardlay Laddys Lynette 4 and Ardlay Follys Lynette. Lynette is a great production and breeding cow coming from a great cow family that traces back to Tolgarth Lynette. Ardlay Lynmarks Satin sired by Ardlay Lynettes Mark (Golden Oak Lees Mark from Ardlay Sultans Lynette 2) was champion and Best Udder 2011 and Reserve Champion and second Best Udder 2012 and her daughter Dundee Satin was Reserve Junior Champion 2011.

Dundee Satin and Sweetrose 74 are both daughters of Ardlay Bosses Dundee (Linmore Zebs Boss from Ardlay Designs Lorna a grand daughter of Ferdon Choice Harvest).
